

Elarasys Worldwide IT Solutions

Elarasys Worldwide was purposely built to help businesses meet their IT challenges with cost-effective, timely solutions spanning the full spectrum of IT infrastructure needs.

Asset Disposition—Recycling

Within our comprehensive Asset Disposition Program naturally resides a recycling option. Too often, however, we find companies sending their IT assets directly to recyclers and getting **nothing** in return.

Before you throw everything away, here's a simple guide to help assess what may have value among your end-of-use equipment. With our 50/50 program we can help you dispose of all of your assets and get your money in the process. **Something is always better than nothing!!**

Company	Resell Models	Recycle Models
IBM	<ul style="list-style-type: none">AIX/iSeries (AS400) ServersResell model numbers 8202–8236, 9117-MMA, 9117-MMBX-Series ServersResell model numbers ending with M2, M3, M4	<ul style="list-style-type: none">Recycle any other modelsRecycle any models below M2
Dell	<ul style="list-style-type: none">Resell models with THREE digits after a letter (e.g., R610, R710)Disk ArraysResell any with a drive of 146GB or larger	<ul style="list-style-type: none">Recycle models with FOUR digits (e.g., 1900, 1950, 2950)
HP	<ul style="list-style-type: none">Resell any model number ending in a G6, G7, G8	<ul style="list-style-type: none">Recycle all other models
EMC	<ul style="list-style-type: none">Resell any model that has 300GB disk drives or larger	
Cisco	<ul style="list-style-type: none">Resell any model number that ends with a G (e.g., 3560G, 3570G)	<ul style="list-style-type: none">Recycle models without a G in the model number
Oracle/Sun-Microsystems	<ul style="list-style-type: none">Resell any system with a T in the model number (e.g., T1000, T2000, T5120)Resell any system with an M in the model number (e.g., M4000, M8000); systems with M2 are particularly marketable	<ul style="list-style-type: none">Recycle models without a T or M in the model number

Do you have a refresh strategy? Most technology loses its resale value by 80% after 30 months. A complete unit almost always has greater resale value, but we also break down data hardware technology and sell at the component level including HDDs, memory sticks, power supplies, chassis, etc.
